

" **BIBLIOGRAPHY** "

Throughout their education, students will be required to complete many projects, assignments and pieces of writing.

The topics will vary from subject to subject, but there is one thing that will be in common for all pieces of work; they will have to acknowledge their sources of information and compile a Bibliography. It is an essential component of all research work.

A Bibliography is a list of all sources used including:-

- books and encyclopaedias
- articles from books and magazines
- personal interviews
- films, videos and television
- CD ROMS
- Internet Web Sites
- E- Mail

In each of the three planners is a focus describing how to acknowledge sources and compile a "**Bibliography**":-

Junior pgs. 134 & 135 **Middle** pgs. 138 & 139 **Senior** pgs. 160 & 161

Should you have any queries or concerns regarding your son/daughter's progress please do not hesitate to contact his/her Year Level Co-ordinator/Advisor.

"In the middle of difficulty lies opportunity." Albert Einstein
