

“CHECKLISTS”

Most students have the best of intentions to ***Do the right thing***, but unfortunately through a lack of scaffolding for their developing brains, poor planning results and they don't follow through and can't ***Do the thing right***.

Things just don't happen if children are not provided with pathways to follow in planning their approach. Too often, adults mistake won't for can't.

To assist students to think clearly about what they are doing and keep their fingers on the pulse on their efforts, ***“My Checklist”*** has been included in all three planners. It provides a structure for them to operate within and assist their brain patterning and functioning.

Also included is a section focussing on students making the transition from being a pupil, co-managed, to becoming a student, self-managed.
