

GOAL SETTING”

In all three planners, there is an emphasis on encouraging the students to:-

- Understand themselves- their strengths, weaknesses and learning styles.
- Set a purpose to achieve- “Why am I at school?”
- Reflect on their efforts with a view to improve – “Is what I’m doing going to get me what I want?”

To quote Walt Disney, “ If you can dream it you can do it”, so with this in mind, we must first reach them before we can teach them.

Goal Setting is often viewed by students as an unnecessary activity because they believe they are in control and it is too formal a process. The reality is that it is a proven, dependable and tried way to cope with the challenge of getting the things done that have to be done.

To assist students to set learning goals and starting targets to measure their progress, included in all three planners is a section, “*Goals for Personal Learning*”. Most students find this task quite difficult.

Junior pgs. 158,159

Middle pgs. 162,163

Senior pgs. 176,177

The following focuses comprehensively cover these areas:-

Junior	My Dreams: Making them happen in 2010	pg. 5
	My Performance Last Term	pg. 6
